## Quick Overview

- Blend of 70% Runner and 30% Robust
- Fall dormancy 2 with excellent winterhardiness
- Runner is an aggressive creeping root
- Robust is a multi-leaf alfalfa with high dry matter yield and RFV
- Vigorous root structures
- Excellent recovery for cutting and grazing
- These attributes combine to make this the Ultimate Dryland blend!

## Selection

This is an exciting new blend for the Western Canadian dryland regions. The combination of multi-leaf and creeping rooted certified varieties is the ultimate dryland performer.

This FD2 blend gives winterhardiness, while superior genetics provides vigour, aggressive regrowth, and high RFV for growers under dryland conditions.

For more information about how to best use this Exciting new certified blend, contact your Northstar Seed representative today.
